

1

Download the [inspiring lesson plan](#) for the circle about Ukraine. Provide a circle for your students, explain the importance of support and the idea of fundraising and exhibition.

2

[Download](#) printables for art and craft session. Provide an art and craft session for your students.

3

Prepare a small exhibition for the parents in the lobby of the school or another place, that fits the criteria. Put there all the art that was made by children for a week. Creating an exhibition can be another great extracurricular activity!

4

Send emails to the parents with an explanation of the project. Encourage them to support Montessori UA by donating to your school or directly on our website.

6

Also, if parents are willing to do more, they can drop their own events in their neighborhoods.

5

One of the options is to hold an auction for the parents on the last day of the exhibition, so at the end of it, you will have the exact amount of funds, raised by children and parents.

7

At the end of the campaign, you send us the email with the details about your fundraising, so we can decide together how these funds can be used.
